OBJECTIVE

I have special interest in development and research related with web-based applications as UI application design.

EXPERIENCE

(May 2005) Senior Application Developer
CIE Studios (Long Beach, CA, United States)

Working with server side application development and 3d real time rendering for web.

(July 2004/March 2005) Information Technology Director
Fermentec LTDA (Piracicaba, SP, Brazil)

Working to establish, plan, and administer the overall policies and goals for the information technology department.

(March 2004/June 2004) Software Engineer
Fermentec LTDA (Piracicaba, SP, Brazil)

Working actively with the design and implementation of a server side application using jsp, servlets and Oracle DataBase.

(Dec 2003/Jan 2004) Consultant
Choice Enterprises, LLC (Cerritos, CA, United States)

Skinner Consultant - Development of a Windows Media Player Skin for the Pioneer AVIC-N1 unit (avic-n1.com /pioneerelectronics.com).

(March/Sep 2001) Project Manager
Comp Jr (Lavras, MG, Brazil)

Project Manager of the University's program referred as Junior Chamber of Commerce. Developed expertise with marketing, software development, and related processes.

(Jul 2001) Trainee
Fermentec S/A (Piracicaba, SP, Brazil)

Internship program with web-based applications and macromedia flash presentations.

**(March/ Aug 2000) Trainee
E-Farm (Lavras, MG, Brazil)**

Internship program with web-based applications, internet server configuration and development of a e-business website for agricultural goods.

EDUCATION

(2004) Masters of Science degree in Computer Science and Computational Mathematic - ICMC / University of Sao Paulo - Sao Paulo, Brazil

Approved for the MSc. Computer Science and Computational Mathematic program by University of Sao Paulo in 2002 and completed the program in 2004. Research Area: Artificial Intelligence/Natural Language Process.

**(2002) Bachelor's degree in Computer Science
Federal University of Lavras - Minas Gerais, Brazil**

Approved for the B.S. Computer Science program by Federal University of Lavras in 1998 and completed the program in 2002.

Technical Skills

Computer languages and software engineering: Strong experience with Java, C/C++, Object Pascal, PHP, ASP, and development of client side applications and web-based applications.

Experience with Microsoft SQL Server, Oracle, and MySQL databases.

Experience with web standards such as DOM, XML, CSS, XSLT, HTTP, and SVG.

Experience with UI implementation and graphics design, winamp3/5, and Windows Media Player skin design.
Experience with Photoshop, Macromedia Fireworks, Macromedia Flash, Macromedia Director, 3D Studio, SVG editors, as well other software authoring applications.

Experience with Apache/Jakarta Web server configuration.

Other tools that are part of my technical workflow: Eclipse Development Framework, Barracuda Framework, Linux, and Windows.

Extra-Projects

Winamp skin development:

Pionner_amp2 - One of the top user rated skins for winamp3/5 with more than 1.2 million downloads.

<http://www.winamp.com/skins/details.php?id=124648>

Pionner3 - Released at july 4, 2004 and with more than 1 million downloads. <http://www.winamp.com/skins/details.php?id=142382>
